

ASX ANNOUNCEMENT**6th October 2025****Placement and underwritten rights issue to accelerate growth**

- ✦ Firm commitments received to raise approximately **\$3 million** (before costs) via a placement of approximately 857.1 million shares.
- ✦ Eligible shareholders to be offered the opportunity to participate in a **non-renounceable pro rata entitlement offer** to raise up to approximately an additional **\$4.09 million** (before costs).
- ✦ Directors, **Ron Gajewski** and **Andy Beckwith** have committed to take up their full Entitlement and sub-underwrite for an additional \$500,000 each.
- ✦ Board restructure with **Andy Beckwith** moving to Non-Executive Chairman.
- ✦ Immediate commencement of a **Bankable Feasibility Study (BFS)**. Carnavale has engaged key experienced consultants to deliver our goal to bring the Kookynie Gold Project to shovel ready status.
- ✦ **Consolidation of capital** subject to shareholder approval.

Placement

Carnavale Resources Limited (ASX: CAV) (**Carnavale** or the **Company**) is pleased to announce it has received firm commitments from professional and sophisticated investors to raise **\$3m** (before costs) via a placement (**Placement**) of approximately 857.1 million shares at an issue price of \$0.0035 per share (**Placement Shares**). Allotment of the placement shares is expected on 20 October 2025. The Placement Shares will be issued under the Company's existing capacity to issue securities provided in ASX Listing Rule 7.1 (457.1 million shares) and Listing Rule 7.1A (400 million shares).

Canaccord Genuity (Australia) Limited (Canaccord) acted as lead manager to the Placement.

CEO Humphrey Hale commented:

We are delighted with the results of the recently released updated Scoping Study for the Kookynie Gold Project (KGP). The Study demonstrates strong economic potential for development of the Project into a mineable operation. Carnavale's Board has initiated this total \$7.09 million capital raise to fund the next chapter in the development of the KGP that centers on the completion of a bankable feasibility study (BFS) to take the Project to a shovel ready status.

The Company is already in discussions with Mining Contractors to determine the best way to unlock the contained value in the Project. We have already engaged the services of some experienced key personnel with proven track records in their field and are restructuring the Board to reflect our mining intentions.

Scoping Study highlights

The updated Study highlights robust financials with a competitive cost profile utilising conservative mining parameters and current cost assumptions. The KGP is located within trucking distance to many operating gold processing plants in the Eastern Goldfields. The Scoping Study was assessed using a gold price of A\$5,500. Scoping Study Highlights include:

- ✦ Strong economic case to develop the Kookynie Gold Project as contract mine, toll treat operation.
- ✦ Undiscounted free cashflow of approximately **A\$237m**.
- ✦ Net Present Value (pre-tax NPV⁸) of approximately **A\$188m** with an **IRR of 165%**.
- ✦ Initial production target (inc. mine dilution) of approx. **970kt @ 3.1g/t** for **93koz Au** recovered. (inc. bonanza zone of **60 kt @ 28.3g/t Au for 55koz**).
- ✦ Total pre-production Capital of approximately **\$3m** with maximum drawdown in the order of **\$21m** in month 9 of operations.
- ✦ Initial mine life of **5 years** with payback of Capital in **month 14** of operations.
- ✦ **50%** of production from the Open pits, with an initial **305kt @ 4.32g/t and 42koz** coming from the Swiftsure pit.

Carnavale's development strategy

As a result of the strong economic outcomes suggested by the Scoping Study, the Company's immediate goal and prime focus is to advance the KGP to mine ready and be approved for mining during 2026. Capital raised from the placement and rights issue will be used for:

- ✦ **Immediate commencement of a Bankable Feasibility Study (BFS)** based on initial open pit mining and a toll treatment ore processing strategy with a completion date during 2026-HY2.
- ✦ Definition of "**maiden open pit mining reserves**."
- ✦ **Execution of a Mining Heritage Agreement** with Traditional owners.
- ✦ Finalise **grant of mining lease** and associated access licenses;
- ✦ Advancement of discussions / negotiations **on potential third party mining and milling options**;
- ✦ Advancement of **necessary technical studies** for inclusion in the BFS;
- ✦ **Funding options** for the development of the mine;
- ✦ Stronger risk management and **enhanced scheduling** to enhance future cashflow; and
- ✦ **Additional exploration** within the KGP area.

The BFS will ultimately enable Carnavale (80%) and joint venture partner Western Resources (20%) to implement an agreed mining and processing strategy to provide best value for shareholders.

The BFS work will include detailed studies that will allow the Company to derisk and have more finance options to develop the project. Upon completion of the study the KGP will be shovel ready. Study work will include:

- ✦ Geotech drilling to define optimum safe slope angles for the Open pit development. There is potential to reduce the strip ratio and enhance the economics over the Scoping Study outcomes.
- ✦ Further Metallurgical testwork will be completed to complement the initial studies. Initial studies suggest that recoveries can be between 97% and 99%. The additional metallurgical work will focus on variability testwork across the orebody and characterizing the ore for processing by a third party mill.

- ✦ Infill/grade control drilling may be required to define the initial mining during the payback period to reduce operational risks.
- ✦ Geochemical ore and waste management studies to ensure that the waste storage both onsite and tailings produced at a third-party processor are understood and can be stored environmentally safely. Initial work does not suggest any significant issues.
- ✦ Hydrology and hydrogeological assessment including water bore drilling to plan water management from mine dewatering and surface water management after rain.
- ✦ Environmental, social and community engagement are an essential part of the BFS to ensure that the environmental requirements are met or exceeded and that the Company has a social license to operate in the Kookynie area.
- ✦ Mining, Milling and Processing options will be established by gaining detailed quotes from contractors and operators to refine costings.
- ✦ Review Capital costings for pre-production capital requirements such as workshops and contractor accommodation.

Board re-structure and engagement of key personnel

Corporately, the Company aims to progressively realign the Board and increase the necessary management skills to take the Company into the next and exciting mining phase. As part of this evolution, Ron Gajewski will step down as Non-Executive Chairman and remain on the board as a Non-Executive Director. Andy Beckwith, formerly a Director of De Grey Mining, will succeed Ron as Non-Executive Chairman following completion of the Annual General Meeting to be held in November 2025.

To progress the BFS and advance the KGP to be mine ready, Carnavale has engaged a number of experienced consultants. Lead consultants include:

Rod Smith - Study Manager

Rod brings extensive experience in resource development and metallurgical studies to the Company. He is a qualified metallurgist with about 40 years of experience. His most recent experience was as the Studies Manager for De Grey Mining and the Hemi Gold Project, prior to the takeover of De Grey Mining by Northern Star. Previous experience includes, Principal Metallurgical Consultant for Coffey Mining, General Manager for Regis Resources, Processing manager at MIM and Registered Manager at Samantha Gold.

Allan Kneeshaw – Consulting Geologist

Allan has worked most recently with De Grey Mining. Allan was pivotal in the discovery of several gold deposits, most notably the 11Moz Hemi Gold Deposit in the Pilbara – going from the initial target generation, through discovery and growth before the takeover by Northern Star in 2025. Allan's 30 year experience has included senior exploration geology roles across a diverse range of commodities and geological terranes with companies including Anglo American, AngloGold Ashanti, Acacia Resources and MIM Exploration.

Bronwyn Campbell – ESG and Community Liaison Officer

Bronwyn is a sustainability and ESG executive with over 15 years of experience working with governments and communities in Australia and internationally. A background in sustainable development, carbon accounting and external affairs, Bronwyn has led teams of sustainability professionals and managed ESG reporting for small and large companies through various roles including most recently De Grey Mining, Rio Tinto and EY.

Underwritten Non-Renounceable Entitlement Offer

In addition to the successful Placement, Carnavale will offer eligible shareholders the opportunity to participate in a non-renounceable pro-rata entitlement offer to raise up to approximately \$4.09 million (before costs) on the basis of one (1) new share for every four (4) shares held at the record date at an issue price of \$0.004 per share, together with one (1) free-attaching share for every seven (7) shares subscribed for and issued (**Entitlement Offer**).

The structure of the pricing and free-attaching shares makes the effective cost of acquiring new shares subscribed for under the Entitlement Offer as \$0.0035 per share.

Only shareholders with a registered address in Australia or New Zealand will be eligible to participate in the Entitlement Offer (**Eligible Shareholders**).

The proposed record date for the Entitlement Offer is 5:00pm WST on 16 October 2025 (**Record Date**) (refer to the Indicative Timetable set out below for further information).

The Entitlement Offer will be non-renounceable. This means the rights cannot be traded on the ASX and are not otherwise transferable. New shares issued under the Entitlement Offer will rank equally with the Company's existing shares.

Further information on the Entitlement Offer will be contained in a transaction-specific prospectus, scheduled to be issued by the Company on Monday 13 October 2025. Eligible Shareholders should consider the prospectus carefully before deciding whether to participate in the Entitlement Offer and consult with their professional advisors if they have any queries.

The prospectus will be available on the ASX's website at www.asx.com.au following lodgement with ASIC and release to ASX.

Canaccord has agreed to underwrite the Entitlement Offer pursuant to an underwriting agreement entered into between Canaccord and the Company. The obligations of Canaccord to underwrite the Entitlement Offer are subject to satisfaction of certain conditions precedent that are customary for an agreement of this nature. If those conditions precedent are not satisfied (or waived by Canaccord) or if certain termination events occur, Canaccord may terminate the underwriting agreement. A summary of the termination events is set out in Annexure 1 to this announcement.

Mr Gajewski and Mr Beckwith have agreed to sub-underwrite the Entitlement Offer up to a maximum of \$500,000 each.

Consolidation of Capital

The Company also intends to seek shareholder approval to consolidate its issued capital at a ratio of 15:1 (**Consolidation**). The purpose of the Consolidation is to reduce the Company's issued capital to a more appropriate and effective capital structure to facilitate continued growth and investor interest.

Where the Consolidation results in a fractional entitlement to a share, performance right or option, that fractional entitlement will be rounded down.

The Consolidation is expected to be carried out following the issue of the Placement Shares and the issue of the shares under the Entitlement Offer, subject to shareholder approval being obtained.

Incentive Securities

As an incentive, key personnel retention and to better align the interests of Board members, key staff and Kookynie Gold Project technical consultants with increased Shareholder value from the potential development of KGP, the Company proposes to issue the following incentive securities after Shareholder approval at the forthcoming AGM:

- (a) 25 million Performance Rights to the CEO, Humphrey Hale, which will have vesting conditions that are performance related to outcomes at the KGP over the next two years. Subject to satisfaction of the vesting conditions, each Performance Right will convert to one Share;
- (b) 120 million options in aggregate to the CEO, Board members and the Company Secretary. The options will be exercisable at \$0.006 each over a three-year period.
- (c) 37.5 million options in aggregate to technical consultants working on the KGP. The options will be exercisable at \$0.006 each over a three-year period.

Further information in relation to these incentive securities will be provided in the Entitlement Offer Prospectus. It should be noted that incentive securities numbers and exercise prices noted above are on a pre-Consolidation basis and will be adjusted accordingly subject to Shareholder approval of the Consolidation.

Competent Persons Statement

The information that relates to Exploration Results for the projects discussed in this announcement represents a fair and accurate representation of the available data and studies; and is based on, and fairly represents information and supporting documentation reviewed by Mr. Humphrey Hale, a Competent Person who is a Member of The Australian Institute of Geoscientists. Mr. Hale is the Chief Executive Officer of Carnavale Resources Limited and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the “Australasian Code for Reporting of Exploration Results, Mineral Resource and Ore Reserves”. Mr. Hale consents to the inclusion in this report of the matters based on his information in the form and context in which it appears.

The information in this announcement that relates to Estimation and Reporting of Mineral Resources at the Kookynie Gold Project is based on information compiled by Mr Michael Job, who is a Fellow of the Australasian Institute of Mining and Metallurgy (FAusIMM). Mr Job is an independent consultant employed by Cube Consulting. Mr Job has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Job consents to the inclusion in the report of the matters based on the information in the form and context in which it appears.

Forward Looking Statements

Statements regarding Carnavale’s plans with respect to the mineral properties, resource reviews, programs, economic studies, and future development are forward-looking statements. There can be no assurance that Carnavale’s plans for development of its mineral properties will proceed any time in the future. There can also be no assurance that Carnavale will be able to confirm the presence of additional mineral resources/reserves, that any mineralisation will prove to be economic or that a mine will successfully be developed on any of Carnavale’s mineral properties.

Compliance Statement – Kookynie Gold Project

With reference to previously reported Exploration results and Minerals resources, the company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and, in the case of estimates of mineral resources that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person’s findings are presented have not been materially modified from the original market announcement.

Reasonable Basis for Forward Looking Statements

No Ore reserve has been declared. This ASX release has been prepared in compliance with the JORC code (2012) and the ASX listing rules. All the material assumptions on which the Scoping Study production target and projected financial information are based have been included in this release and disclosed.

Consideration of modifying factors in the format specified by JORC Code (2012) Section 4 is contained above.
